## Experience

At FSquared David has played a key role in the development of community benefit and social value approaches on a range of projects. David has been instrumental in the generation of community benefit proposals which he has then successfully tested and refined through engagement with key stakeholders. He adopts an extremely rigorous approach to ensure that all proposals are developed to a high standard, are deliverable, tangible and affordable.

David has extensive academic research and consultancy experience in a range of sustainability and environmental management fields. He worked as a Senior Environmental Consultant with Resource Futures delivering waste-related research and consultancy projects for a range of clients. Prior to that, David worked at the University of Bradford as a post-doctoral researcher and lecturer. He has presented at a range of conferences and has had several papers published.

## Key Projects
