Experience

At FSquared, Stuart has demonstrated his versatility. His specialties are workforce planning, sustainable procurement and supply chain development. He is also a competent project manager and is a Member of the Association of Project Managers (MAPM). He has worked on a wide range of capital development projects with both public and private organisations. He is also able to draw on his knowledge of working across a range of sectors (health, housing, infrastructure, education) when undertaking project work.

Prior to working at FSquared, Stuart worked in property and estate management to carry out market appraisals of residential and commercial property for the purpose of sales and letting. He also had overall responsibility for the performance management of a firm of residential sales, letting and property managers.
